I1 AM3: Internal Rules of Procedure

Proposers Executive Committee

Motion text

Insert from line 141 to 144:

- the approval of the Advisory Committee
- the approval of the Presidency of the General Assembly
- the approval of the the the proposed volunteer member of the Awareness Team

Reason

This amendment ensures that the Internal Rules of Procedure accurately reflect the expanded democratic powers of the General Assembly by formally granting it the authority to approve the proposed volunteer member of the Awareness Team. As the General Assembly is FYEG's highest decision-making body, any new responsibility related to ratification or approval of key organisational roles should be explicitly included within its defined powers. By adding this provision, FYEG strengthens legal clarity, institutional consistency, and democratic oversight while ensuring that the General Assembly's role in the Awareness Team selection process is properly codified within the organisation's governing framework.
