I1 AM4: Internal Rules of Procedure

Proposers Executive Committee

Motion text

Insert from line 355 to 356:

Committee to the General Assembly. The General Assembly ratifies the proposed Advisory Committee by a simple majority vote.
Concerning the volunteer member of the Awareness Team:
The outgoing Executive Committee will present the proposed volunteer member of the Awareness Team to the General Assembly. The General Assembly will ratify this proposed member of the Awareness Team by a simple majority vote.

Reason

This amendment improves procedural clarity and consistency within the Internal Rules of Procedure by explicitly including the election and ratification procedure for the volunteer member of the Awareness Team within the Exceptions section of the General Assembly. As this process now differs from standard elections by combining Executive Committee proposal with General Assembly ratification, it is important to clearly codify it alongside other exceptional procedures, such as those for the Advisory Committee.
