

## R1 AM24: Media freedom and independence under attack

Proposers

Grön Ungdom (Sweden)

### Motion text

#### Delete from line 76 to 77:

- The EU should obligate member states to guarantee ~~an~~-independent financing of public broadcasters ~~through licence fees~~.

### Reason

What matters is that the funding is *independent*, there is *no reason to specify through which exact means*, as it can differ between states.
