R4 AM17: Protecting International Law Against Empires: to Infinity and Beyond

Proposers Executive Committee

Motion text

From line 82 to 83:

- Enforcing a ~~swift transition from~~socially just and rapid phase-out of fossil fuels through public investment, energy democracy, and renewable public infrastructure to end reliance on authoritarian countries and guarantee energy independence

Reason

This amendment makes clearer that the transition away from fossil fuels must also be socially just. It adds the importance of public investment, energy democracy, and public infrastructure, showing that real energy independence should be built through fair and democratic systems, not only speed.
