R4 AM32: Protecting International Law Against Empires: to Infinity and Beyond

Proposers Ostra Ziele?

Motion text

From line 36 to 38:

~~China, far from being a peaceful superpower, has extended sovereignty over Hong Kong, pressures Taiwan toward annexation, and commits human rights violations such as the persecution of Uyghurs.~~China has dismantled democracy in Hong Kong by, among others, imprisoning its elected legislators, threatens neighboring states such as Japan, India and Taiwan with military aggression and annexation, and commits human rights violations such as the persecution, mass imprisonment, violence and culture erasure of Uyghurs.

Reason

The current wording downplays the scale of China's aggression against its neighbors and its own citizens. We believe this wording is more accurate and more in line with the reflections previously gathered in the Green movement (e.g., at CDN and GYG's Electionvision on Taiwan in 2024).
This amendment has been consulted with a representative of Taiwanese Young Greens.
