Proposers DWARS

Motion text

From line 31 to 33:

including sieges and attacks on healthcare and civilian areas, constitute violations of international law and ~~possible~~ war crimes. The ongoing ~~assault on~~crimes against humanity in Gaza, which UN bodies and genocide scholars deemed genocide in 2025, exemplifies

Reason

As FYEG we have a stance on Israël / Palestine, as formulated in the resolution of last year. Therefore, we feel it is appropriate to call it war crimes / crimes against humanity as that is the terminology that we agreed upon then and used in the resolution created at the GA25. We opt to use these terms as within the last resolution we call it a genocide already, and we know it is still a sensitive issue for a lot of MO's, so therfore feel this is the term that most MO's could stand behind. Moreover, we do not wish to have hourlong discussions on which term to use.
