SR1* **Statutory Resolution on Membership Continuity in Cases of Merger, Dissolution, or Transformation**

Proposer: Executive Committee
Agenda item: 10. Statutory Documents

Motion text

Noting that

- Across Europe, Green and progressive parties are increasingly joining forces against the far right. In some cases, this has led to party mergers or changes that affect their youth organisations in international federations.

Recognising that

- Mergers or structural changes of mother parties can create uncertainty about the membership status of their youth organisations within the European Green Party and FYEG;

- Decisions by external organisations should not automatically determine FYEG’s internal membership decisions.

Believing that

- FYEG must be able to act quickly to ensure stability and clarity during political changes;

- FYEG should decide its own membership independently and continue supporting youth organisations committed to green and progressive values.

The Executive Committee requests, with the approval of the General Assembly, that

- The Internal Rules of Procedure (IRP’s) be amended to allow the General Assembly, or between General Assemblies the Executive Committee acting

by qualified majority, to confirm or adapt the membership status of a member
organisation undergoing merger, dissolution, or structural change;

- Such decisions can be made before the finalisation of external processes and shall take immediate effect, and be binding regardless of subsequent decisions by third-party organisations.

Note: As the Statutes and IRPs are being amended, this resolution shall, where necessary, be interpreted in line with any adopted changes to ensure consistency across governing documents.

Reason

This statutory resolution is necessary to ensure that the amendment enters into force immediately upon adoption and can be applied without delay. Given the political urgency and the risk that mergers, dissolutions, or structural transformations may create uncertainty around FYEG membership status, the federation must be able to act proactively and protect membership continuity as soon as the General Assembly approves the change. This ensures legal clarity, prevents external interference, and safeguards FYEG’s autonomy in determining the status of its own member organisations.
