R5 AM1: Universal Basic Services: Towards a Convivial Degrowth Europe

Proposers Junge Grüne Schweiz

Motion text

From line 100 to 106:

- ~~**The European Commission and European national governments to design financial and legal solutions for free healthcare.**~~
- **The European Commission and European national governments to design financial and legal solutions for free healthcare.**

We call on the EU to move away from outdated fiscal rules and implement progressive capital taxation through the distinct mechanisms of annual wealth taxes~~. The~~ on net assets to curb ongoing capital concentration, and comprehensive inheritance taxes to target the intergenerational transmission of structural inequality; the potential revenue generated from ~~wealth taxes could~~both fiscal instruments shall be allocated according to each country's specific needs and political priorities, ~~offering opportunities~~providing crucial funding to invest in energy, education, healthcare, transportation, ~~or~~and unemployment programmes.[Space]

Reason

In Switzerland, inheritance tax and wealth tax are not the same thing, so it is important to mention both of these taxes
