Motion text

From line 100 to 106:

- ~~The European Commission and European national governments to design financial and legal solutions for free healthcare.~~
- The European Commission and European national governments to design financial and legal solutions for free healthcare.

We call on the EU to move away from outdated fiscal rules and implement progressive capital taxation through the distinct mechanisms of annual wealth taxes. ~~The on net assets to curb ongoing capital concentration, and comprehensive inheritance taxes to target the intergenerational transmission of structural inequality;~~ the potential revenue generated from ~~wealth taxes could~~ both fiscal instruments shall be allocated according to each country's specific needs and political priorities, ~~offering opportunities~~ providing crucial funding to invest in energy, education, healthcare, transportation, ~~or~~ and unemployment programmes.[Space]

Reason

In Switzerland, inheritance tax and wealth tax are not the same thing, so it is important to mention both of these taxes
